

IKB Leasing Csalogány u.

Top-quality working conditions with more favourable lease terms.

Client Objectives

IKB Leasing put the emphasis on uninterrupted business and cost savings.

The location, quality, and amenities of the office used so far met those needs, but a rent reduction was inevitable to follow market trends. The possibility of relocation was also considered, but their location in the centre of Buda continued to be a priority in order to retain their employees.

Results

After exploring few alternatives, we set ourselves the goal to hammer out a financial arrangement as favourable as possible from the current landlord.

As a result of our successful negotiations, IKB Leasing could renew their lease agreement for the existing office, achieving the desired savings in rent and the option to prolong the lease agreement.
