

Manpower Capital Square

No business interruption.

Client Objectives

Manpower were getting very close to their lease expiry and wanted to stay in their current office but needed to renegotiate their lease.

We got on board close to their lease expiry so there was no time to lose.

Results

We started negotiations with the current landlord and we managed to secure for Manpower a 5 month rent free period, besides negotiating the fit – out cost to be covered also. This way Manpower managed to keep their existing comfort, however save significant cost and have no business interruption.
