

Panasonic Office Garden

Smooth fit-out works.

Client Objectives

Panasonic decided to move into a new office due to their expansion plans and increased traffic. We came on board as they needed professional help to project manage the fit-out works of their new office space, coordinate the works in order to create the office environment they wanted to have.

Space
600 m² office,
Office Garden,
Budapest

Results

Our project management expert team after getting on board with Panasonic requirements made sure that the landlord understands all fit-out works technical details and negotiated all extra requirements within the budget. Coordinated the fit-out work contracts, supervised the work in order to achieve high quality, to be finished on time and costs to be kept within the agreed budget. The Panasonic team were able to move into their new high quality, modern office without delays.
